FOR JALEMA COLORKRAFT

Permanent paper

2004-11-09

Light and air have an impact on paper. ISO 9706 is standards that up an definition for how permanent paper is on this impact. . The requirement for permanent paper in this standard are given in terms of

- Minimum strength, measured by tear test.
- Minimum content of neutralizing substances, measured by the alkali reserve.
- Maximum content of easily oxidised wood residues, measured by the Kappa number.
- Maximum and minimum pH-values of cold water extract from the paper.

Filing Board 225gr. Brown and 270gr. Blue, Red, Green, Yellow & Orange meets the requirement of ISO 9706.
