Epson Business Laser Printer Range

HIGH-PERFORMANCE BUSINESS PRINTING

Whatever your business' key priorities, Epson has a laser printer to meet your needs. When print quality matters, our technology delivers the best. When budgets are squeezed, our devices help you cut costs and energy usage. And when it comes to making a sound investment, our printers provide the reliability and peace of mind you're looking for.

A range that meets all needs

From mono printers for small to medium workgroups, like the WorkForce AL-M200 Series, to colour multi-function devices for medium to large workgroups, such as the AL-CX37 Series, our extensive range of A4 and A3 laser printers meets your every business requirement.

For seamless integration into your existing IT infrastructure, Email Print for Enterprise, allows you to securely send documents directly to Epson's laser printers from your company email address.[1]

Better for your budget

With an affordable purchase price and a low total cost of ownership, Epson lasers represent excellent value for money. Printers such as the AL-M400 Series and AL-M8100 Series help save even more money with double-sided printing and high-yield toner cartridges.

Many of our laser printers are included in Epson's print and save package which offers businesses significant cost reduction in printing when compared with supplies and service cover bought separately.

Better for the environment

Your bottom line isn't the only aspect to benefit from our laser printers' efficiency. Impact on the environment is greatly reduced by ENERGY STAR-qualified low power consumption, paper-saving double-sided printing features, and a clever, compact design that reduces the amount of materials used.

Small to medium workgroups

WorkForce AL-M200 Series

A4 mono printer

Prints at 30ppm[2]

Duplex

Network and Wi-Fi available

AL-M200DN shown

WorkForce AL-MX200 Series

A4 mono 3-in-1 plus fax on DNF model

Prints at 30ppm[2]
